

Image Quality Detection (IQD)

Proactively Identify and Address Camera Quality Issues With an Early Warning Image Analysis Solution

Close the gap on lost revenue by identifying camera issues when they start. IQD from Global Agility enhances your existing MOM system with added intelligence to quickly identify camera issues for proactive correction. Leveraging industry-leading hybrid cloud automation technology, IQD scores image quality so you can identify and address issues immediately. Featuring customizable confidence score thresholds, IQD provides real-time notifications to highly trained professionals available 24/7 to analyze and escalate confirmed malfunctions and outages when scores move below client-defined levels. Reducing the need for manual reviews, IQD's round-the-clock camera monitoring provides the critical insight needed to keep your cameras running at peak performance.

Protect Against Camera Malfunctions Including:

- Contrast
- Motion blur
- Glare interference
- Angle accuracy
- Line noise
- and more...

Minimize Leakage and Code-Offs

Eliminate days/weeks/months of lost revenue and bill for more vehicles by proactively identifying and correcting faulty cameras for uninterrupted roadway collections.

Address Camera Issues Quickly

Stay on top of roadway performance with immediate issue notifications for prompt intervention and correction.

Ensure Optimal Camera Performance

Gain an intelligent image detection system that provides access to on-demand quality reports and sophisticated dashboards for nonstop camera performance monitoring.

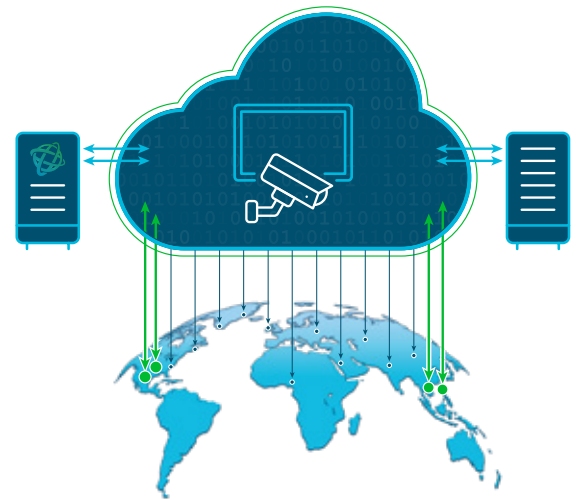

Reduce Maintenance Spend

Save ongoing repair dollars by streamlining maintenance cycles and focusing staff where problems exist.

Integrate Quickly and Scale With Ease

Enable accelerated integration without the need for pricey equipment or installations using our hybrid cloud automation technology. Directly integrating with your existing OCR or ALPR systems, IQD's flexibility allows you to quickly connect cameras for 24/7 monitoring and alerts. Whether you are adding new roadways or expanding camera locations, our cloud-based integration and global team can quickly ramp up to support your fluctuating business needs.
